

Please do not allow the new LPFM stations to take priority over existing FM translator services. In particular, I am asking that you allow the K-LOVE station to remain on the air using its current FM translator services. I believe K-LOVE is important both locally and nationally due to its wholesome and uplifting music. Furthermore, they provide prayer and counseling service 24/7 with the pastors on staff. Their music and their prayer support help thousands of people on a daily basis. I know they've helped me. I have even heard that several suicides have been prevented due to their help. I'm not against LPFM stations. I just don't think it's right for them to push aside stations that are already in that space. Please, with all of the music revolving around sex, drugs, and violence, people need something that can give them peace and hope. I believe that's what K-LOVE does.
